

Ultra Purity Air Purifier Owner's Manual

The Best Warranty in the Industry

Backed by the best warranty in the industry, you can take pleasure knowing you've made a sound investment in your purifier.

30-Day, Money-Back Guarantee

In the unlikely event that you're not completely satisfied with your purifier, return it within 30-days, no-questions-asked.

5-Year Mechanical Warranty

Your purifier is warranted to be free from defects in material and workmanship for a period of 5 years from the date of purchase, provided your purifier was operated under normal residential use.

5-Year, Pro-Rated Filter Warranty

Includes a 5-year, pro-rated filter warranty; the most comprehensive in the industry. No more costly filter replacements every few months or even years. Genuine filters are designed to last up to 5-years, under normal residential use.

5-Year Mechanical Warranty

Your purifier is warranted to be free from defects in material and workmanship under normal residential use for 5 years from the date of purchase.

In the event of a malfunction or failure, please call to speak to a customer service representative and ask for a return authorization number. Your purifier should be returned to the address provided with the RAtt written on the packaging. It should be sent insured and packaged with sufficient protection, along with your original bill of sale.

If the malfunction or failure is a result of defects covered by this warranty, USA Sealing will, at its discretion, repair or replace the air cleaner and return it to the purchaser.

This warranty is limited to the original retail purchaser and is not transferable. The warranty does not cover damage due to accidents, abuse, tampering, or misuse, nor does it cover damage resulting from service by persons other than an authorized USA Sealing representative.

USA Sealing's liability under this warranty is limited to the repair or replacement of the defective purifier with the exception of damages, resulting from USA Sealing's failure to comply with federal or state warranty law.

USA Sealing shall not be liable for incidental or consequential damages whether direct or indirect. The replacement filters are covered under a separate pro-rated warranty.

This warranty is expressly granted in lieu of all other warranties, which in some states cannot be excluded. There are no warranties which extend beyond the description of the face hereof, and no person, representative, or firm is authorized to commit USA Sealing to further liability or obligation.

If you have any questions concerning the use and care of USA Sealing's products or services under this warranty, please call (716) 288-9952 or email: service@usasealing.com

Cleaning Instructions

Your purifier has been designed to require very little maintenance. To remove the dust buildup on the 360-degree air intake, vacuum the exterior of the unit using the brush attachment of your vacuum cleaner. To clean the other surfaces on your purifier, wipe with a soft dampened cloth.

Choosing a Location

From years of research and experience, we recommend that you place your purifier in your bedroom.

Pollution is everywhere and the bedroom is no exception. Today, homes are sealed more tightly to conserve energy. Unfortunately, this seals in allergens. Mold, bacteria, chemicals, and other contaminants.

Having your purifier in your bedroom will allow you to wake up rested and refreshed without cold-like symptoms such as a stuffy nose, sore throat or cough; these are the symptoms that can occur as a result of a night of breathing contaminated air.

You may be using your purifier to assist with sleep related issues, for relief of asthma or allergy symptoms, or to help with COPD.

Whatever the reason, we recommend you run your unit in the bedroom 24 hours a day, 7 days a week, all 365 days per year. This will ensure you're getting maximum protection from airborne pollutants, when you need it most.

For full information on your purifier, please take a moment to read this manual.

Operating Instructions

Please read all instructions before using your purifier. Follow the directions below for easy set-up and first-time operation.

- Unpack and remove all packing material. Remove air purifier from plastic bag.
- Completely unravel the power cord and place your purifier on a flat, dry, stable surface, at least four inches from any wall, with the air vent facing away from the wall.
- Make sure the speed control switch is in the off (0) position and plug the power cord into a 120 VAC/60Hz wall outlet.
- Your purifier features three different speed settings: high (111), medium (11), and low (1). The highest setting will provide the fastest delivery of clean air.
- When first turning on your purifier, set to the high setting and let it run for an hour. After an hour, turn speed control switch to desired setting.
- Your purifier is designed to run 24/7. This ensures optimal filter performance and guarantees the air is clean and free from pollutants.

Important Safety Instructions

PLEASE READ AND SAVE THESE SAFETY INSTRUCTIONS BEFORE USING YOUR PURIFIER.

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons including the following:

1. Read all instructions before operating your purifier.
2. Always place your purifier on a firm, flat, dry level surface.
3. The purifier must be used in its upright position.
4. Keep your purifier away from heated surfaces, open flames, combustible gases, and vapors.
5. Keep your purifier and cord out of the way, where it cannot be stepped on or tripped over.
6. Before operating your purifier, extend the cord and inspect for any signs of damage. Do not use your purifier if the cord is damaged.

7. Keep your purifier away from water and other liquids.
8. Do not run power cord under carpets, and do not cover with throw rugs.
9. Always turn your purifier to the off (0) position and unplug from the wall before moving it, changing the filter or whenever it is not in use. Be sure to pull the plug and not the cord when disconnecting from the outlet.
10. Do not drop, insert or allow any objects to enter into any openings of your purifier. If this occurs, immediately turn off and unplug your purifier and call a customer service representative.
11. Do not block the air openings on your purifier. Blocking the air openings will decrease the efficiency of your purifier and increase risk of injury.
12. Do not use outdoors. Your purifier is intended for indoor use only.
13. To avoid the risk of fire, shock or personal injury, do not use an extension cord.
14. Do not sit, stand, or place heavy objects on your purifier.
15. Do not operate your purifier if it malfunctions or becomes damaged in any way.
16. Keep out of the reach of children.
17. DO NOT attempt to repair or adjust any electrical or mechanical functions on your purifier. Doing so will void your warranty. All servicing should be performed by an authorized representative only.

Filter Replacement and Warranty

The filter warranty is designed to provide you with years of worry-free operation. Your genuine filter has been designed to last up to 5

years under normal residential use and features a 5-year pro-rated warranty.

Some household environments are more polluted than others, therefore the life of the filter media in your purifier may be reduced. To address this issue, USA Sealing's pro-rated warranty allows you to receive a discount on your next filter replacement purchase, based on the length of time you have owned your filter.

If your purifier is used in rooms with unusually high concentrations of tobacco smoke, sawdust, soot, chemical vapors, and/or odors, genuine filter will need to be replaced more often. In these circumstances, you should replace your filter once your purifier ceases to emit clean, odorless air. If the odor of the highly concentrated contaminant is present when exiting the air output vent, then it is time to replace your filter.

To receive a replacement filter at the pro-rated price, please call USA Sealing and ask to speak to a customer service representative. If your filter is out of warranty, please contact the retail store or the dealer where you originally purchased your purifier.

Pro-Rated Filter Replacement Prices*

Up to 2-years of use: 40% off the retail price, plus shipping

2 to 3-years of use: 30% off the retail price, plus shipping

3 to 4-years of use: 20% off the retail price, plus shipping

4 to 5-years of use: 10% off the retail price, plus shipping

Please note: the pro-rated warranty is also included with every subsequent filter replacement purchase.

*USA Sealing reserves the right to refuse a filter replacement at the pro-rated price and/or request that your filter be returned for inspection.

CAUTION: Do not attempt to clean the filter. Washing or cleaning the filter will void the warranty and may cause injury. Information is subject to change without notice.

Changing the Filter

1

You will need a large plastic trash bag, a pair of work gloves and a Phillips screwdriver.

Switch your unit to the OFF position. Unplug your purifier from the power outlet.

2

Turn your purifier upside down on a soft surface.

3

Using a Phillips screwdriver, remove the four retaining screws from the bottom cover.

4

Wearing a pair of protective work gloves, lift the bottom cover off and set aside.

5

Carefully remove the filter and dispose in a plastic trash bag.

6

Remove the out pre-filter and dispose in the same plastic trash bag.

7

Install the new outer pre-filter by aligning the pre-filter seam with the power cord.

8

Install the new filter top side down.

9

Replace the bottom cover and screw down tightly.

10

Turn your purifier right side up and operate on the high (III) setting for at least one hour.
